

NOTICE TO MARINERS N°. 14 – 2025

Dredging Campaign – September / October 2025 - Newhaven Harbour

Mariners are advised that intermittent Maintenance Dredging Operations will commence on or around 7th September 2025 of the Outer and Inner Harbour as well as some works at North Quay. These operations will be carried out on an ad-hoc basis in conjunction with beach nourishment works along the coast and dredging at other ports. The duration of the works is therefore dependant on the sharing of the dredger with these other operations and the weather. The exact timeline is therefore not known but this Notice to Mariners is valid until 31st October 2025.

The dredging will be carried out by the Boskalis Westminster Trailing Suction Dredger “Sospan Dau”, which will exhibit lights and shapes in accordance with the International Regulations for Preventing Collisions at Sea. The Sospan Dau may at times be working in conjunction with the Plough Vessel “Acamar”, which will also exhibit the appropriate signals.

The works will involve frequent passages from the Harbour to the Disposal Ground, situated approximately 1 mile south of Newhaven Breakwater Lighthouse, as indicated on nautical charts.

Masters and others in charge of craft are warned to navigate with caution and pay strict attention to information and directions issued to them by Newhaven Port Control. Call sign **"Newhaven Radio" - VHF Channel 12**. Tel. 01273 612926.
